ROYAL NAVY AIRSHIP "R 33" - "The Atlantic"

General Service photo.

AN AUTOMATIC LAUNCH FOR THE NORTH SHOREHEAD COAST.

The launch is one of several small boats for the Commercial Light-house Service. They are "automatic" boats being propelled during heavy weather by means of a special automatic system. Each boat carries enough fuel to last for a year. The launch is being used at one of the North's stations last week by the Earl of Liverpool, who is due to be married.
